and 25th

Coin Recognition Matching Activity

What coins can you see on this page? Look carefully at the pictures and then, draw a line to match each coin to its value.

2p

10p

1p

5p

Have a look at some coins. Can you find any 1ps, 2ps, 5ps or 10ps? Can you sort them into sets?

Coin Recognition Matching Activity

What coins can you see on this page? Look carefully at the pictures and then, draw a line to match each coin to its value.

£1

20p

£2

50p

Have a look at some coins. Can you find any 20ps, 50ps, £1 or £2 coins? Can you sort them into sets?

How Much Do the Ice Creams Cost?

How much does each ice cream cost? Look at the coins and write the total amount in the circle.

How Much Do the Ice Creams Cost?

How much does each ice cream cost? Look at the coins and write the total amount in the circle.

Caterpillar Measuring

Look carefully at the caterpillars and check which colour they need to be.

 = longest caterpillar

 = shortest caterpillar

 = other caterpillars

Giraffe Measuring

Look carefully at the giraffes and check which colour they need to be.

= tallest giraffe

= shortest giraffe

= other giraffes

Minibeast Colour by Number Addition and Subtraction Up to 10

Solve the calculations in the picture to work out what colours they should be!

2 = Red
4 = Blue
7 = Black
10 = Yellow

Addition to 10 Colour by Number

Solve the calculations to work out what colours to use.

3 = yellow

4 = orange

5 = blue

6 = red

7 = purple

8 = black

9 = pink

10 = green

Can You Complete the Patterns?

The Very Hungry Caterpillar Pattern Sheet

Continue the patterns below.

Counting in 10s

Cut out the numbers in the dashed boxes and stick them in the correct order.

	20							90	
--	----	--	--	--	--	--	--	----	--

Capacity and Volume

Can you draw a line on each container to show the water level at the correct volume?

half full

nearly full

nearly empty

full

Which container has the smallest capacity? **Circle one.**

Which container has the greatest capacity? **Circle one.**

Which container has the greatest capacity? **Circle one.**

Which container has the smallest capacity? **Circle one.**

Tiger Poem

Tiger has fur with stripes that are black,

With sharp, pointy claws; orange fur on his _____.

His teeth are all jagged, he loves to eat meat,

With a long, stripy tail and pads on his _____.

back

pack

snack

feet

meet

seat

Monkey Poem

Monkey is funny, he swings from a tree,

His tail helps him balance, he's gentle as can _____.

With a long curly tail and fur on his back,

He eats bananas and nuts for a quick, healthy _____.

Rhyming Words

For each of the below words, find 3 rhyming words.

cat 1 _____ 2 _____ 3 _____

dog 1 _____ 2 _____ 3 _____

pen 1 _____ 2 _____ 3 _____

man 1 _____ 2 _____ 3 _____

bed 1 _____ 2 _____ 3 _____

bun 1 _____ 2 _____ 3 _____

bell 1 _____ 2 _____ 3 _____

hair 1 _____ 2 _____ 3 _____

ring 1 _____ 2 _____ 3 _____

snake 1 _____ 2 _____ 3 _____

meat 1 _____ 2 _____ 3 _____

Rhyming Words

Draw a line to join the rhyming words together. You could also cut out the pictures, turn them face down and play a game to find rhyming pairs.

car

cat

frog

mouse

fox

house

box

bat

star

dog

Two Coloured Daisy

Science Experiment

Method

1. To start with, pour about 12-15cm of water into each cup.
2. Add your choice of food colouring to each cup (a different colour in each). Be generous with the colours.
3. Using the knife, the adult can slice the stem of the daisy in half, lengthwise.
4. Leave about 6cm of solid stem at the top of the flower, near the head.
5. Place the daisy so that one half of the stem is in one cup of coloured water and the other half of the stem is in the other cup of water.
6. Make sure the stem is well submerged in the water in both cups.
7. Watch and wait. The flower petals will start to change colour within the hour, so it may be an activity you keep checking back on, rather than watching all the time.
8. The longer the flower stays in the water, the more colourful the flower will be.

You will need:

Large white daisy

Food colouring (2 colours of your choosing)

2 or more cups

Chopping board

Sharp knife (for adult use)

Water

Science Experiment

Two Coloured Daisy

How can you make the daisy turn a different colour?

A grown up will need to cut the stem of the daisy.

Which 2 colours are you going to use?

What happens to the colour of the daisy when the stems are put in the coloured water?

What happens to the coloured water?

How long does it take for your daisy to start changing colour?

Bees and Pollination

Science Experiment

Method

1. Explain to the children that this is an experiment to show how a bee helps with the pollination of flowers.
2. As a bee moves from one flower to another it moves the pollen between them.
3. Make a flower by putting a picture on the front of the paper bag.
4. Put the cheesy puffs inside the bag.
5. Give each child a Bee Finger Puppet and let them fly to a flower and grab some cheesy puffs. Explain that they can eat the cheesy puffs, but not lick or wipe the crumbs off their fingers!
6. After they have had chance to eat a few puffs and get lots of crumbs on their fingers, let them fly to a friend's flower and land on it.
7. Ask them to see what has happened to the crumbs from their fingers.
8. Some of the 'pollen' has been left behind on their friend's flower – they have successfully pollinated a flower, which will then help it to make new seeds.

You will need:

Small paper bags

Cheesy puff crisps

Bee Finger Puppet

Flower Cut-Outs

Science Experiment

Bees and Pollination

How do bees help with pollination?

How do bees help with making new seeds?

What are the cheesy puffs representing?

What happens to the crumbs on your fingers?

Fly to a friend's flower and put your hands on it.

What happens to the 'pollen' from your fingers?

Balancing Butterfly

Science Experiment

Method

1. Print the butterfly onto card and cut it out.
2. Colour in the butterfly.
3. Stick the matchstick down along the length of the butterfly using the glue or sticky tape. Leave about 1cm of the matchstick sticking out past the head. If you are using glue, you will need to wait for it to dry before moving to the next step.
4. Slide a paperclip onto the tip of each front wing.
5. Adjust the paperclips slightly so the butterfly can balance on the tip of your finger.
6. Now the children are ready to explore.

You will need:

Butterfly Template

Card

Scissors

Matchstick

2 paperclips

Strong glue or sticky tape

Colouring pencils or felt-tip pens

Science Experiment

Balancing Butterfly

Can you colour your butterfly so that each side is the same?

Can you stick your matchstick down the middle of your butterfly?

Can you add a paperclip to the end of each wing?

Can you balance your butterfly on the tip of your finger?

Can you walk with the butterfly still balanced on your finger?

What else around the room can you balance your butterfly on?

Outdoor Home Learning Bingo Card

Build an imaginary campfire out of sticks.	Collect five stones to colour or paint.	Draw a rainbow on the ground outside using chalk.	Play hide-and-peek outside in the garden.
Go on a minibeast hunt in the garden.	Make some mud paint by mixing mud and water in a bucket.	Create your own den in the garden.	Count how many birds you can see in your garden in five minutes.
Have a picnic lunch outside in the garden with your favourite teddy bear.	Plant some beans or seeds in the garden.	Make a magic wand from a stick in the garden.	Use a bucket of soap and water to clean your toys.
Create an outdoor obstacle course in the garden.	Make a chalk picture on your fence or garden patio.	Build a minibeast hotel.	Make your own magical potion in a bucket.

Draw the Weather

1. Today it is sunny.

2. Today it is windy.

3. Today it is partly cloudy.

4. Today it is raining.

5. Today it is snowing.
