Summer 2 - Week 1

01/06/20

Science – Data collection and making observations

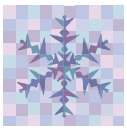

If you are able, go into a garden or park and answer the following questions.

Which season are we in now?

Autumn 

Spring 

Summer 

Winter 

What is the weather like? You can circle more than one.

sunny 

rainy 

cloudy 

snowy 

windy 

foggy 

hot 

cold 

What animals can you see? Sketch and label a picture.

What plants can you see? Sketch and label a picture.

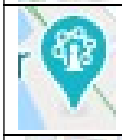

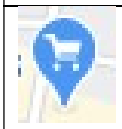

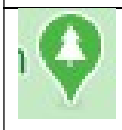

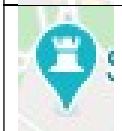

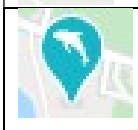

Geography

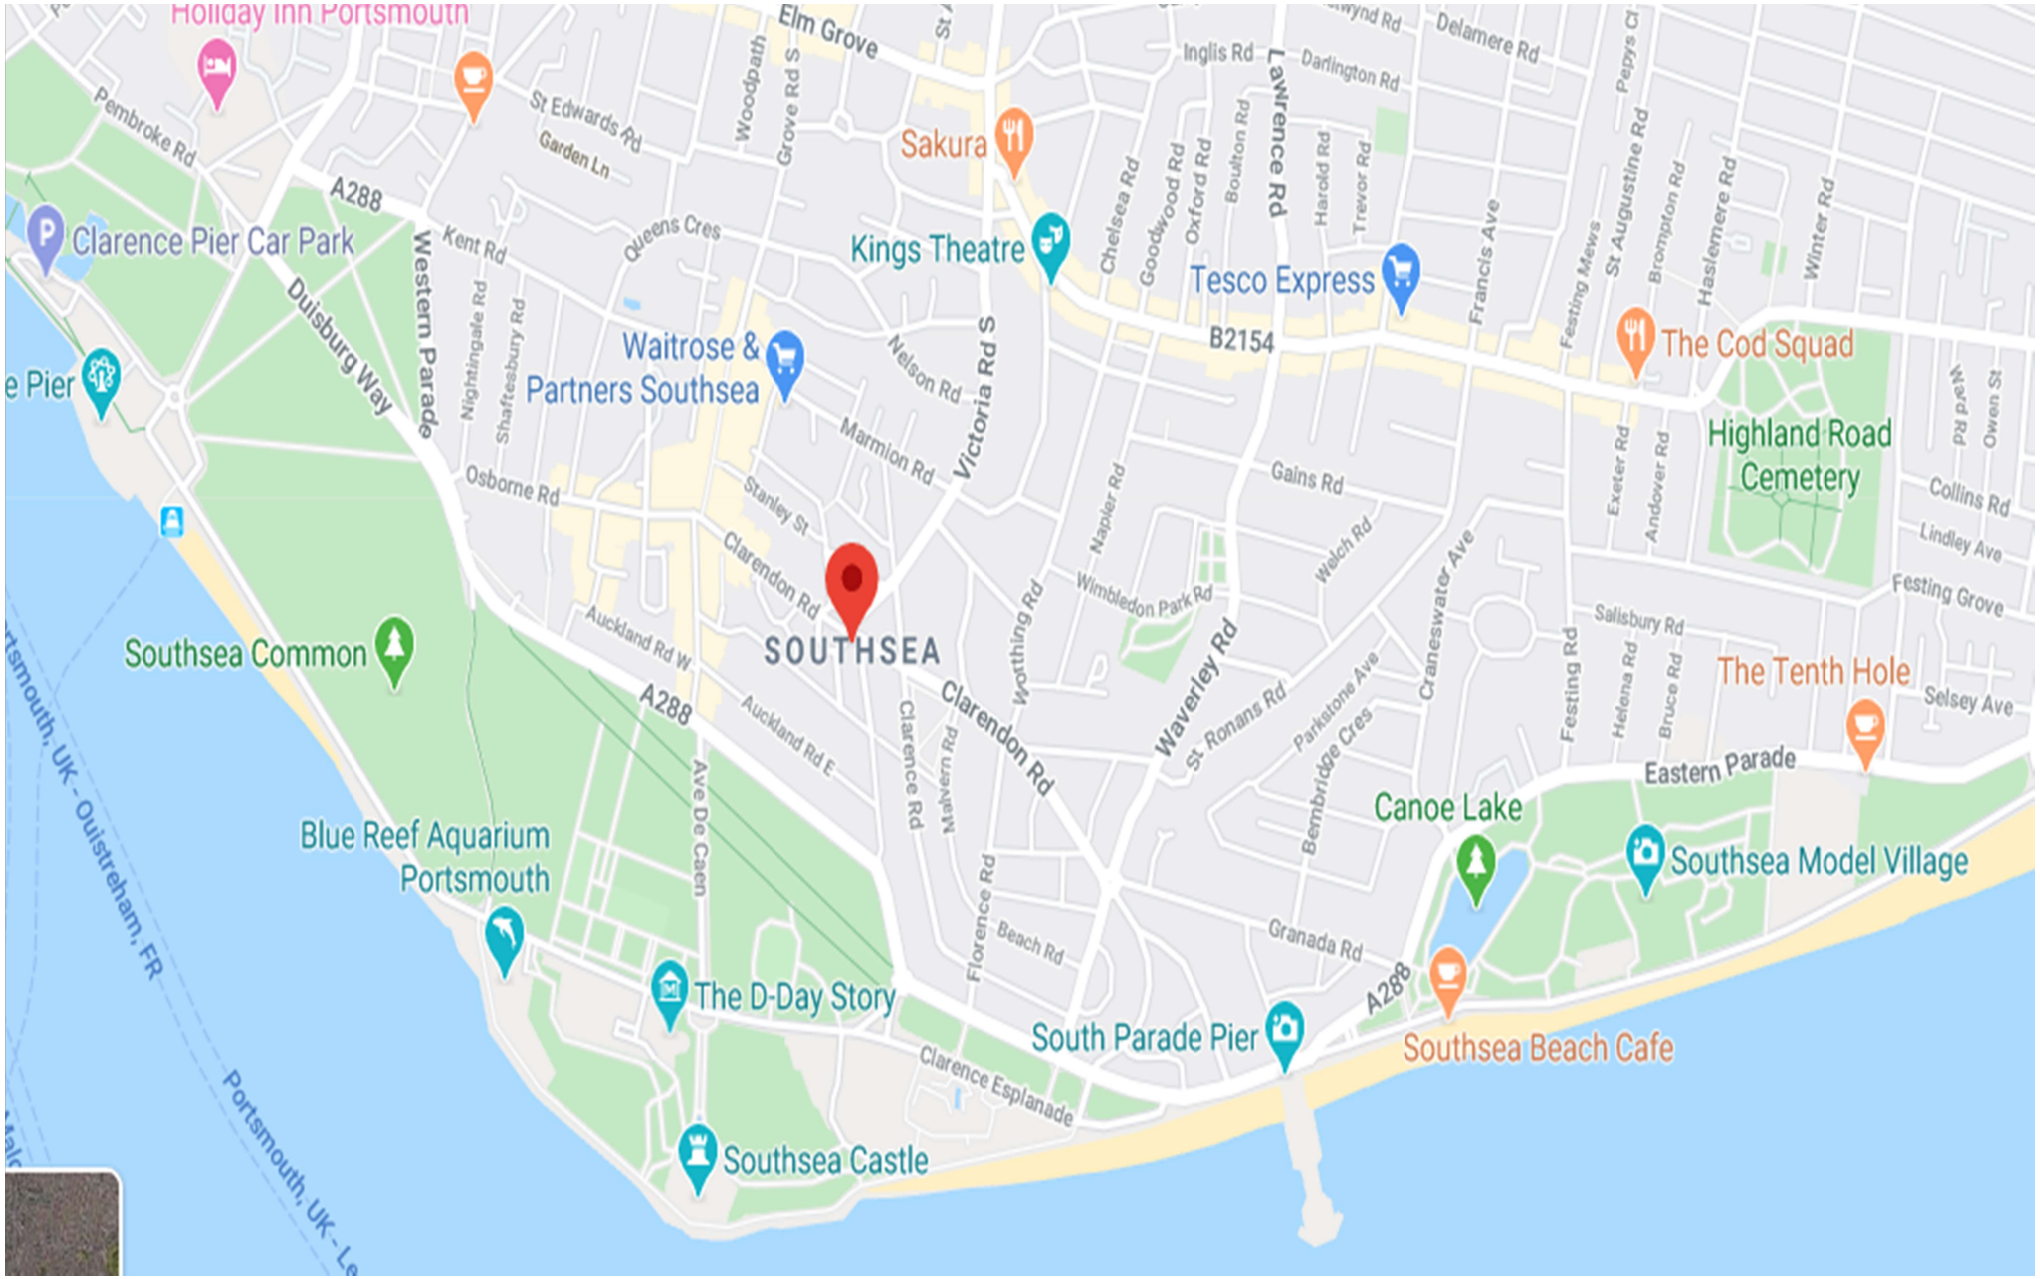

Study the map of Southsea on the next page.

What can you see?

Look at the symbols – what type of places are they? What could people do there?

Write what type of place you think each symbol represents.

PSHE - Changes

Have a think about changes you notices

What happens to leaves in Autumn?

What happens to ice-cream on a hot day?

What happens to babies as they get older?

Draw a picture of you as a baby and you today.

Name some things that have changed about you.

Music – Rhythm and beat.

Have a think about syllables. How many are in your name? Can you clap you name? Mrs Hill and Mrs Jones both have 3 syllables in theirs!

Read the rhyme below. Now try and clap out the rhythm of the words.

Double, double, this, this,
Double, double, that, that,
Double this, double that,
Double, double, this, that.

Can you try different parts of your body to tap, pat or click along with the rhyme? What other nursery rhymes could you try?

Art

This picture shows 4 different types of media used to create a wavy texture. They use short and long lines, swirls, wavy lines, colour, shading and even some splatter to experiment with different techniques.

Have a go at using different types of tools to create sea water. You could use colouring pencils, wax crayons, felt tip pens, paint, food colouring or even natural materials.
