

YR Summer 2 Under the Sea

Key knowledge:

- The parts of a fish – mouth, eyes, tail, fins, gills and scales
- Names and features of a range of other sea creatures
- That sea creatures are adapted to survive in their habitat
- That we have a responsibility to look after our oceans
- That we live on an island and that means it is a piece of land surrounded by water
- That there are 4 seas that surround the United Kingdom; Atlantic Ocean, North Sea, English Channel and the Irish Sea

Key vocabulary – Seaside

ocean	A large area of salt water.
diver	A person who swims underwater.
coast	The place where land meets the sea.
shoal	A group of fish
pollution	Anything that makes the earth dirty and unhealthy.
adaptation	Special feature that helps an animal to stay alive in its surroundings.
fin	Part of the fish that looks like a wing.
gills	The body part that helps a fish breathe underwater.
shipwreck	The remains of a ship which has been sunk.
